16th November 2008

Dear Damian,

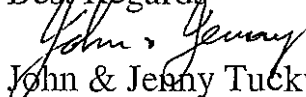

We would like to congratulate you and your team for contributing to one of the most memorable days of our lives – Amanda and Chris's wedding day. From the early planning stages when nothing seemed impossible, through the rocky financial patch for The Beachouse and on to the actual day your professionalism, attention to detail and courtesy has been magnificent.

Will you please be sure to pass onto the Chef and her team our sincere thanks for presenting such a wonderful meal to our guests. Her attention to detail and willingness to adjust to Amanda and Chris's menu desires were most appreciated. Even after the event on Saturday when we called in to collect the usual bits and pieces Chef and her assistant were smiling and happy to assist us in carrying flowers etc from the venue.

Misty and her front of house team are to be congratulated also for their care and excellent service throughout the evening. As you know there was a good proportion of our guests who are in the hospitality industry and we are very pleased to say that every one of them commented on the very happy, smiling and helpful team that you have at The Function. The communication between your teams and us as the hosts was terrific. It only took some observation and one conversation with Misty to realize that we were in very capable hands and we did not have to worry about anything but just enjoy the evening. This we did!

Damian, our sincere thanks and congratulations once again to you and your team – a job extremely well done. Be assured that all of our eighty guests will be singing the praises of The Function at The Beachouse for a long long time. I know that Jenny and I will.

Best Regards

John & Jenny Tuckwell
